

Newcomer Award Note on creating the abstract

Please consider the following obligatory conditions:

- **Length:** 650 – 1200 words
- **Introduction & Questions**
Explain which question underlies your work, what its the objective is and what the practical relevance of the work is.
- **Material & Methods**
Describe the methods/methodology and the materials used in arriving at the results of your work.
- **Results & Discussion**
Describe the results that you arrived at and explain about the opportunities and risks that they represent.
- **Conclusions & Prospects**
Comment in brief on the practical application of your results and about additional activities that you believe are necessary to put them into practice, and also explain what you consider to be the distinguishing characteristics or unexpected aspects of your work, your approach or the results achieved.
